## Corticon.js Life Cycle

Progress Software's Corticon.js Product Life Cycle consists of a series of milestones and activities that determine the different stages of a product release's life cycle: starting from its first General Availability (GA) to the eventual Retirement. The Guide posted below will help you understand the different stages of Corticon.js product release life cycle, and plan the upgrade and/or migration strategy for your Corticon applications. The following link opens the May 2017 PDF of the [Progress Corticon.js Product Life Cycle Guide](#)

## Corticon.js
