Corticon.js Life Cycle

Progress Software's Corticon.js Product Life Cycle consists of a series of milestones and activities that determine the different stages of a product release's life cycle: starting from its first General Availability (GA) to the eventual Retirement. The Guide posted below will help you understand the different stages of Corticon.js product release life cycle, and plan the upgrade and/or migration strategy for your Corticon applications. The following link opens the PDF of the [Progress Corticon Product Life Cycle Guide](#)

Corticon.js

Product Release	Latest Product Update (U)	Life Cycle by Product Release		
		Active	Sunset (Mature)	Retired
Corticon.js 2.3	2.3.0	2025-April	TBD	TBD

- Corticon.js 2.2	2.2.0	2025-January	2025-April	2025-April
- Corticon.js 2.1	2.1.1	2024-April	2025-January	2025-January
- Corticon.js 2.0	2.0.0	2023-April	2024-April	2024-April
- Corticon.js 1.4	1.4.0	2022-May	2023-April	2023-April
- Corticon.js 1.3	1.3.0	2021-Nov	2022-May	2022-May
- Corticon.js 1.2	1.2.0	2021-Apr	2021-Nov	2021-Nov
- Corticon.js 1.1	1.1.0	2020-Oct	2021-Apr	2021-Apr
- Corticon.js 1.0	1.0.0	2020-Jun	2020-Oct	2020-Oct

(U) Progress only supports the most current Update for a given product release.

(LTS) Long Term Supported product release.

Note: The Active date is when the release (such as, 1.1.0) was made generally available. There may be any number of subsequent cumulative Updates issued for a release, but these do not affect the Active, Sunset and Retirement dates of product releases.
