Basic Rule Modeling

An introduction to business rule modeling in Corticon.js StudioCorticon Studio. You will learn how to:

- Capture rules from business specifications
- Model the rules
- Analyze the rules for logical errors
- Test the execution of your rules

In Corticon.js Studio, you do all of this without programming.

See *Tutorial: Basic Rule Modeling in Corticon Studio*.

Advanced Rule Modeling

Builds on what you learned in the Basic Tutorial. In this tutorial, you will learn how to use some of Corticon.js Studio's more complex and powerful functions, including:

- Build a Vocabulary with associations
- Use Scope and Aliases in rules
- Create action-only rules
- Use equations in rules
- Use Collections and Collection operators
- Use Filters in rules
- Use a variety of attribute and entity operators in rules
- Sequence Rulesheets in a Ruleflow
- Embed attributes within rule statements
- Test at the Ruleflow level

See *Tutorial: Advanced Rule Modeling in Corticon Studio*.
