

Welcome to Progress OpenEdge Command Center Release 2.0 Documentation

- To launch an OpenEdge Command Center book in Adobe Reader, click the title of the book.
- To search for an expression in the entire OpenEdge Command Center documentation set, perform an Advanced Search operation by opening the **oeccidx.pdx** file located in the documentation set folder (oecc-pdfs-20). When performing an Advanced Search, ensure that the **In the index named oeccidx.pdx** radio button is selected in the Search dialog box.
- OpenEdge Command Center books are also available on docs.progress.com.
